

Remarks/Arguments:

Applicants submit that the Abstract and Specification as amended address the examiner's concerns. Applicants respectfully request withdrawal of these objections.

Claims 54-59 are indicated as containing allowable subject matter and would be allowable if rewritten to overcome the rejections under 35 U.S.C. § 112, second paragraph, and to include the limitations of the base claim and any intervening claims. Claim 32 has been amended to include the limitations of allowable claim 54 and intervening claim 53. Claims 56 and 58 have been placed in independent form and include the limitations of base claim 32 and intervening claim 53. Each of the remaining claims, including withdrawn claim 60, now depends from one of these allowable claims.

It is respectfully submitted that the amended claims are clear and concise and address the rejections under 35 U.S.C. § 112, second paragraph.

It is respectfully submitted that each of the pending claims is in condition for allowance. Early reconsideration and allowance of each of the pending claims are respectfully requested.

Respectfully submitted,
